Focus on global cooperation

1st National Reinsurance Summit

Dear participants of the 1st National Reinsurers Summit,

We are pleased to welcome representatives of national reinsurance companies from around the world in Moscow. On behalf of the Bank of Russia, I wish you all effective work, new useful contacts and interesting meetings. By combining our efforts we will be able to achieve more in the development of our local markets and in global reinsurance market.

Sergei Shvetsov,
First Deputy Chairman of Central Bank of Russian Federation

Dear colleagues!

I would like to thank all participants for their interest in the exchange of experience and wish the organizer - the Russian National Reinsurance Company - a success in finding the best world practices in reinsurance.

As the ancients used to say: "The beginning is more than a half of everything". I hope this event will set a good tradition and become a good occasion for international partners to visit Russia at least once a year.

Igor Yurgens

President of All-Russain Insurance Association

Dear Sirs and Madames!

In a rapidly changing world a traditional market as reinsurance shows trends to change and shift in the centers of influence. Many countries all over the world create national reinsurance companies with the participation of state capital in order to support their insurance markets. Today a growing role of national reinsurers is one of the visible industry trends. It's time to join our efforts, set up a potential and new opportunities for growth.

That's why we took the initiative to hold the first ever summit of national reinsurance companies. Thank you for your participation and support of our idea. Welcome to Moscow. The RNRC team is doing its best to make the summit really interesting and useful for all of us.

Nikolay Galushin CEO & President of RNRC
